

CRFI

Commercial Fan-Forced Heater

Ideal for maintaining comfort in areas exposed to cold drafts, such as vestibules and stairwells, with easy mounting holes for quick installation and built-in thermal overheat protection for safety.

FEATURES & BENEFITS

Three Grill and Knob Color Options

Includes white, almond, and metallic grills and knobs in the box, giving customers the flexibility to match any decor

Adjustable Thermostat

Easily maintain desired comfort levels with precise temperature control

Comfort Start Technology

Prevents the fan from activating until the heating element is warm, eliminating blasts of cold air at startup

Safe and Reliable

Built in thermal protection, fan delay and sturdy construction

Automatic Fan Delay

Utilizes residual heat when unit cycles off

Long Lasting Performance

Engineered with built-in thermal protection, fan delay, and durable construction

Dual-Rated Design

Allows you to choose between high-output (4000 W / 3000 W) or low-output (2000 W / 1500 W) settings, perfect for many applications

COLOR

White, Metallic, Almond

FINISH

Powder coated to resist fading and abrasion.

VOLTAGE

240 V/208 V

WATTAGE

(4000 W / 3000 W) High Output or (2000 W / 1500 W) Low Output.

CONSTRUCTION

Front grill is constructed of 20-gauge steel construction.

HEATING ELEMENT

The wall heater has a nickel chromium resistance wire heating element within a steel sheath. The fins are crimped tightly to the surface to provide excellent heat transfer.

MOTOR & FAN

The fan motor is fully enclosed and factory lubricated complete with a 5 blade mixed flow aluminum fan. The Fan Delay is a bi-metallic snap action type.

CONTROLS & WIRING

240 V/208 V has a standard single pole built in thermostat.

INSTALLATION

The recess box is designed to be installed within wood or metal stud frames, as well as masonry walls and contains knockouts for wiring connections.

WARRANTY

1-year warranty on complete unit.

APPLICATIONS

Vestibules | Entranceways | Stairwells | Kiosks
