EQUINOX SERIES

Energy Savings

Built-in electronic thermostat.

Exclusive Design

Provides maximum comfort and efficiency.

Convenient Operation

Simply adjust temperature right from the baseboard.

The revolutionary design provides a sleek, compact heater profile, while improving heater performance, reducing energy consumption, and increased comfort. The Equinox comes equipped with a built-in electronic thermostat for ease of installation. The thermostat is highly accurate and maintains a consistent room temperature providing up to 33% in energy savings. The heater is equipped with pre-stamped mounting holes for easy installation and a thermal overheat protection for safety.

BENEFITS

- Built-in electronic thermostat for peak performance and energy efficiency
- Warm any space with 40% faster heat output
- Accurately control heat output within 0.9°F (0.5°C) for consistent room temperatures
- Sleek design, compact size, and versatile placement for enhanced room design flexibility.
- Shark-fin heating element blade design improves heat transfer, provides quiet operation and extends product life
- Use in all residential applications, commercial offices and lobbies
- Full length automatic overheat cut-out for safety

APPLICATIONS

All Residential Applications | Commercial Offices

EQUINOX SERIES

SPECIFICATIONS

Voltage	Multi-volt 240/208			
Wattage	Sizes ranging from 500W to 2500W			
Color	White			
Finish	Powder coating resists fading and abrasion			
Construction	22-gauge steel construction			
Heating Element	Element is totally enclosed, providing superior life expectancy and resistance to rust			
Warranty	1-year warranty on complete unit; 10-year element warranty			

Specifications subject to change. copyight® 2025 Glen Dimplex Americas
